ARDOT - STANDARD BID CONDITIONS

1. **GENERAL:** Any special terms and conditions included in the invitation for bid override these standard terms and conditions. The standard terms and conditions and any special terms and conditions become part of any contract entered into if any or all parts of the bid are accepted by the Arkansas Department of Transportation (ARDOT).
2. **ACCEPTANCE AND REJECTION:** ARDOT reserves the right to reject any or all bids, to accept bids in whole or in part (unless otherwise indicated by bidder), to waive any informalities in bids received, to accept bids on materials or equipment with variations from specifications where efficiency of operation will not be impaired, and to award bids to best serve the interest of the State.
3. **PRICES:** Unless otherwise stated in the Bid Invitation, the following will apply: (1) unit prices shall be bid, (2) prices should be stated in units of quantity specified (feet, each, lbs., etc.), (3) prices must be F.O.B. destination specified in bid, (4) prices must be firm and not subject to escalation, (5) bid must be firm for acceptance for 30 days from bid opening date. In case of errors in extension, unit prices shall govern. Discounts from bid price will not be considered in making awards.
4. **BID BONDS AND PERFORMANCE BONDS:** If required, a **Bid Bond** in the form of a cashier's check, certified check, or surety bond issued by a surety company, in an amount stated in the Bid Invitation, must accompany bid. **Personal and company checks are not acceptable as Bid Bonds.** Failure to submit a Bid Bond as required will cause a bid to be rejected. The Bid Bond will be forfeited as liquidated damages if the successful bidder fails to provide a required Performance Bond within the period stipulated by ARDOT or fails to honor their bid. When a bidder claims and can show clear and convincing evidence that a material mistake was made in the bid and was not the bid intended, the bidder may be permitted to withdraw their bid prior to award without forfeiture of bid bond. Cashier's checks and certified checks submitted as Bid Bonds will be returned to unsuccessful bidders; surety bonds will be retained. The successful bidder will be required to furnish a **Performance Bond** in an amount stated in the Bid Invitation and in the form of a cashier's check, certified check, or surety bond issued by a surety company, unless otherwise stated in the Bid Invitation, as a guarantee of delivery of goods/services in accordance with the specifications and within the time established in the bid. **Personal and company checks are not acceptable as Performance Bonds.** In some cases, a cashier's check or certified check submitted as a Bid Bond will be held as the Performance Bond of the successful bidder. Cashier's checks or certified checks submitted as Performance Bonds will be refunded shortly after payment has been made to the successful bidder for completion of all terms of the bid; surety bonds will be retained. Surety bonds must be issued by a surety company that is authorized to do business in the State of Arkansas and that is listed on the current United States Department of the Treasury Listing of Approved Sureties. Surety bonds must be executed by a resident or non-resident agent who is licensed by the Arkansas State Insurance Commissioner to represent the surety company executing the bond, and the resident or non-resident agent shall file with the bond the power of attorney of the agent to act on behalf of the bonding company. Certain bids involving labor will require Performance Bonds in the form of surety bonds only (no checks of any kind allowed). These bonds shall not only serve to guarantee the completion of the work, but also to guarantee the excellence of both workmanship and material until the work is finally accepted and the provisions of the Plans, Specifications, and Special Provisions fulfilled. In such cases, the company issuing the surety bond must comply with all stipulations herein and must be named in the U. S. Treasury listing of companies holding Certificates of Authority as acceptable sureties on Federal Bonds and as acceptable reinsuring companies. Any excess between the face amount of the bond and the underwriting limitation of the bonding company shall be protected by reinsurance provided by an acceptable reinsuring company. Annual Bid and Performance Bonds on file with E & P Division must have sufficient unencumbered funds to meet current bonding requirements, or the bid will be rejected, unless the balance is submitted as set forth above, prior to bid opening.
5. **TAXES:** The ARDOT is not exempt from Arkansas State Sales and Use Taxes, or local option city/county sales taxes, when applicable, and bidders are responsible to the State Revenue Department for such taxes. These taxes should not be included in bid prices, but where required by law, will be paid by the ARDOT as an addition thereto, and should be added to the billing to the ARDOT. The ARDOT is exempt from Federal Excise Taxes on all commodities except motor fuels; and excise taxes should not be included in bid prices except for motor fuels. Where applicable, tax exemption certificates will be furnished by the ARDOT.
6. **"ALL OR NONE" BIDS:** Bidders who wish to bid "All or None" on two or more items shall so stipulate on the face of bid sheet; otherwise, bid may be awarded on an individual item basis.
7. **SPECIFICATIONS:** Complete specifications should be attached for any substitution or alternate offered, or where amplification is necessary. Bidder's name must be placed on all attachments to the bid.
8. **EXCEPTIONS TO SPECIFICATIONS:** Any exceptions to the bid specifications must be stated in the bid. Any exceptions to manufacturer's published literature must be stated in the bid, or it will be assumed that bidder is bidding exactly as stated in the literature.
9. **BRAND NAME REFERENCES:** All brand name references in bid specifications refer to that commodity or its equivalent, unless otherwise stated in Bid Invitation. Bidder should state brand or trade name of item being bid, if such name exists.
10. **FREIGHT:** All freight charges should be included in bid price. Any change in common carrier rates authorized by the Interstate Commerce Commission will be adjusted if such change occurs after the bid opening date. Received common carrier bills that reflect ICC authorized rate changes must be furnished.

11. **SAMPLES, LITERATURE, DEMONSTRATIONS:** Samples and technical literature must be provided free of any charge within 14 days of ARDOT request, and free demonstrations within 30 days, unless ARDOT extends time. Failure to provide as requested within this period may cause bid to be rejected. Samples, literature and demonstrations must be substantially the same as the item(s) being bid, unless otherwise agreed to by ARDOT. Samples that are not destroyed will be returned upon request at bidders expense. Samples from successful bidders may be retained for comparison with items actually furnished.
12. **GUARANTY:** Unless otherwise indicated in Bid Invitation, it is understood and agreed that any item offered or shipped on this bid shall be newly manufactured, latest model and design, and in first class condition; and that all containers shall be new, suitable for storage or shipment and in compliance with all applicable laws relating to construction, packaging, labeling and registration.
13. **BACKORDERS OR DELAY IN DELIVERY:** Backorders or failure to deliver within the time required may constitute default. Vendor must give written notice to the ARDOT, as soon as possible, of the reason for any delay and the expected delivery date. The ARDOT has the right to extend delivery if reasons appear valid. If reason or delivery date is not acceptable, vendor is in default.
14. **DEFAULT:** All commodities furnished will be subject to inspection and acceptance by ARDOT after delivery. Default in promised delivery or failure to meet specifications authorizes the ARDOT to cancel award or any portion of same, to reasonably purchase commodities or services elsewhere and to charge full increase, if any, in cost and handling to defaulting vendor. Applicable bonds may be forfeited.
15. **ETHICS:** *"It shall be a breach of ethical standards for a person to be retained, or to retain a person, to solicit or secure a State contract upon an agreement of understanding for a commission, percentage, brokerage, or contingent fee, except for retention of bona fide employees or bona fide established commercial selling agencies maintained by the contractor for the purpose of securing business."* (Arkansas Code, Annotated, Section 19-11-708).
16. **NOTICE OF NONDISCRIMINATION:** The Arkansas State Highway Commission, through ARDOT, complies with all civil rights provisions of federal statutes and related authorities that prohibit discrimination in programs and activities receiving federal financial assistance. Therefore, ARDOT does not discriminate on the basis of race, sex, color, age, national origin, religion (not applicable as a protected group under the Federal Motor Carrier Safety Administration Title VI Program), disability, Limited English Proficiency (LEP), or low-income status in the admission, access to and treatment in the ARDOT's programs and activities, as well as the ARDOT's hiring or employment practices. Complaints of alleged discrimination and inquiries regarding the ARDOT's nondiscrimination policies may be directed to Joanna P. McFadden Section Head – EEO/DBE (ADA/504/Title VI Coordinator), P. O. Box 2261, Little Rock, AR 72203, (501)569-2298, (Voice/TTY 711), or the following email address: joanna.mcfadden@ardot.gov. Free language assistance for Limited English Proficient individuals is available upon request. This notice is available from the ADA/504/Title VI Coordinator in large print, on audiotape and in Braille.
17. **PROHIBITION OF EMPLOYMENT OF ILLEGAL IMMIGRANTS:** Pursuant to Arkansas Code Annotated 19-11-105, all bidders must certify prior to award of a contract that they **do not** employ or contract with any illegal immigrant(s) in its contract with the state.
18. **DISCLOSURE:** Failure to make any disclosure required by Governor's Executive Order 98-04, or any violation of any rule, regulation, or policy adopted pursuant to that order, **shall** be a material breach of the terms of this contract. Any contractor, whether an individual or entity, who fails to make the required disclosure or who violates any rule, regulation, or policy **shall** be subject to all legal remedies available to the agency.

RESTRICTION OF BOYCOTT OF ISRAEL CERTIFICATION

Pursuant to Arkansas Code Annotated § 25-1-503, a public entity **shall not** enter into a contract valued at \$1,000 or greater with a company unless the contract includes a written certification that the person or company is not currently engaged in, and agrees for the duration of the contract not to engage in, a boycott of Israel.

By signing below, the Contractor agrees and certifies that they do not currently boycott Israel and will not boycott Israel during any time in which they are entering into, or while in contract, with any public entity as defined in § 25-1-503* If at any time after signing this certification the contractor decides to engage in a boycott of Israel, the contractor must notify the contracting public entity in writing.

If a company does boycott Israel, see Arkansas Code Annotated § 25-1-503.

ARKANSAS DEPARTMENT OF TRANSPORTATION

SPECIFICATION 21-285-166

FOR

INDUSTRIAL TOOL CARRIER
WITH HYDRAULIC BOOM MOWER

A. General Conditions:

1. **Current Model:** Units furnished under this specification shall be the latest improved model in current production, as offered to commercial trade, built for the U.S. market, and shall be of quality workmanship and material. Machines manufactured for foreign markets will not be accepted. All equipment offered under this specification shall be new. Used, reconditioned, shopworn, demonstrator, prototype or discontinued models are not acceptable. Manufacturers of the units supplied must have been in the business of producing operational units for at least two years and must have recently sold similar units to domestic governmental agencies. The model furnished must have been in production for a minimum of one year, or be the latest version of a previous model. Bidder/s may be required to submit documentation substantiating the aforementioned requirements. A list of user references may also be required.
2. **Literature:** Manufacturers literature, verifying adherence of proposed unit to each line item addressed in this specification, shall be submitted with the bid. If any literature and/or specifications of items conflict with ARDOT specifications, the conflict(s) shall be specifically noted, corrected and submitted with the bid.
3. Any deviations from specifications and requirements herein must be clearly pointed out by bidder. Otherwise it will be considered that equipment offered is in strict compliance with these specifications and requirements, and successful bidder will be held responsible therefore. Deviations must be explained in detail on an attached sheet. However, no implication is made by the Arkansas Department of Transportation that deviations will be acceptable.
4. **Manuals:** The successful bidder shall furnish one (1) Operator's Instruction Manual with each unit delivered and one (1) copy each of Shop Repair Manual and Parts Book to each FOB point.

The successful bidder may provide Shop Repair Manuals and Parts Manuals on computer media (CD, DVD, USB Drive, etc.) in lieu of printed manuals.
5. **Training:** The successful bidder shall furnish qualified personnel to instruct ARDOT operators and service technicians on operation and maintenance of machine.

In addition, the successful bidder shall furnish information on any factory service schools which would be available for ARDOT service technicians.
6. Shall be assembled, adjusted and made ready for continuous operation at time of delivery.
7. All parts, accessories and tools necessary for satisfactory operation of this unit shall be furnished whether or not they are specifically mentioned in this specification (including standard equipment as regularly furnished by manufacturer as shown on printed literature and specifications - unless specifically excluded by this specification).
8. **Parts Inventory & Service Facilities:** The successful bidder shall maintain a representative inventory of replacement parts and service facilities for servicing equipment bid on.
9. **Demonstration:** The Arkansas Department of Transportation reserves the right to require a demonstration, under actual working conditions, of equipment bid under this specification before award is made. The demonstration would be performed (free of any charge) by the bidder or an authorized representative at a mutually acceptable location. If requested, the bidder should be prepared to demonstrate the equipment within thirty (30) days after notification. Failure of the bidder to perform a satisfactory demonstration within the specified time may be grounds for rejection of the bid.
10. **Cooperative Purchasing:** Other tax-supported entities* in Arkansas (cities, counties, state agencies, school districts, etc.) may purchase from this Contract on an individual basis under the same specifications and conditions, and at the pricing set forth by each vendor, all at the discretion of each vendor in each case. Prices could be reduced by a vendor for minor alterations in conditions (changing order quantities, deleting options, etc.) as agreed by both parties, but could not be raised above the contract bid price except for any additional freight charges. Vendors would not be required to sell to any such entity under this contract, and those entities would not be obligated to purchase from the contract.

Each entity wishing to purchase from the contract must make contact directly with the appropriate vendor(s). The Arkansas Department of Transportation shall remain "out of the loop" for such transactions: all contact, orders, invoices, payments, etc. regarding such transactions must take place exclusively between the tax-supported entity and the vendor. The Department shall be held harmless of any and all liability arising from such transactions.

* Tax-supported entities are defined as those receiving more than half of total funding from appropriated tax funds.

B. Unit Specifications:

1. General: This specification is intended to cover a self-contained, all-wheel drive, industrial tool carrier with a hydraulically operated mid-mount boom and rotary deck mower attachment. Wheel tractors manufactured for the agricultural market are not acceptable for the purposes of this specification. Machine furnished must meet this specification at minimum and shall be completely assembled and ready for service at time of delivery.
2. Engine: Rear mounted, liquid cooled, turbocharged, diesel engine with a minimum of 142 advertised horsepower at rated speed. Shall have a minimum piston displacement of 3.8 liters. Engine shall comply with current U.S. EPA standards for off-road vehicles. Shall have a 12V electrical system including starter, battery, alternator, and charge indicator. All gauges or indicators including temperature, oil pressure, charge, and electric hour meter, are to be mounted in the instrument panel in cab readily visible to operator from seat. Shall have electronic governor, lube oil filters, fuel filters with replaceable elements, approved dry type air cleaner, and pre-cleaner.
3. Cooling System: Shall have anti-freeze protection to -20° F, or lower. Cooling fans shall be hydraulically driven with an automatic reversing capability for the purpose of clearing debris from radiators and oil coolers.
4. Fuel System: Shall have a fuel tank and DEF tank capacity which will allow ten (10) continuous hours of machine operation.
5. Propulsion System: Closed loop hydrostatic type drive system with piston pump(s) having a minimum of two (2) speed ranges. Shall have manufacturers regularly furnished filtration system for hydrostatic charge pumps. Shall have the ability to operate with infinitely variable speeds from 0 to 25 MPH.
6. Axles: Shall be all-wheel drive with both front and rear axles powering machine simultaneously.
7. Differentials: Locking type with operator controlled lock/unlock or limited slip differentials.
8. Brakes: Shall have four wheel braking, actuated by a foot pedal in the operators compartment. Parking break as regularly furnished by manufacturer.
9. Steering: Hydraulically boosted or hydrostatic steering. Shall have front and rear (all-wheel) steering with three (3) separate steering modes as listed: Circular, Crabbing, Traditional Front Axle Steer.
10. Tires and Wheels: Shall have front and rear size matched tires and wheels as regularly furnished by manufacturer. Tires shall be mounted on 22.5" wheels.
11. Boom: Shall have a hydraulically operated, articulating, telescoping, mid-mount boom assembly, located on the right side of the tool carrier. Frame mount shall provide for unrestricted movement of boom and offer limited obstructions to forward vision. Boom shall have the operational capability to swing a minimum of 175 degrees from fore to aft of machine. Boom shall have a maximum vertical reach capability of 25' from ground level to outside edge of deck, and a downward reach of 18' 9" from ground level to outside edge of deck at minimum. Telescoping boom shall have a maximum extended horizontal operating length no less than 29.5' measured from center of machine to outside edge of deck. Boom attachment head shall have the ability to hydraulically tilt and be fitted with a quick disconnect style coupler to be used with other attachments regularly furnished by manufacturer.
12. Boom Cradle: Boom shall have the ability to safely fold and store to the rear of the machine in a cradle for high speed road travel.
13. Boom Break-Away: Mower boom design shall incorporate a break-away or swing back feature to prevent damage to boom in case of collision with obstacles while in operation.
14. Mower Deck: Shall have a hydraulically driven rotary mower attachment mounted on boom. Mower deck shall be 60 inches in width at minimum. Deck shall be constructed of eleven (11) U.S.S gauge steel at minimum. Mower blades shall be powered by a direct drive hydraulic motor capable of operating at 4,900 psi minimum. Mower blades shall be full swinging double edged type. Blades shall be 5/8" thick with a 1" thick blade bar at minimum. Mower deck shall be fully assembled and ready for operation at time of delivery.
15. Mower Attachment Hydraulic System: Closed loop type on an independent circuit with piston pump(s) providing a minimum flow of 23 GPM. System shall incorporate internal relief valves for component protection. System shall have a minimum flow rate to adequately power all attachments regularly offered by manufacturer at optimum performance. Shall have a filtration system with the ability to filter out impurities of 100 microns minimum. Shall have manufacturer's regularly furnished oil cooling system.
16. Boom and Hitch Controls: Shall be electric over hydraulic with joystick(s) located in cab convenient to operator. Shall have following boom functions at a minimum: horizontal swing, vertical lift, dipper reach, telescopic reach, mower head tilt.

17. Front Hitch: Shall have a front hitch as regularly furnished by manufacturer. Hitch shall have a minimum lift capacity of 2500 lbs. Front hitch shall have the ability to attach to common skid-steer type attachments with the use of a quick-tach hitch. Shall have manufacturer's regularly furnished electrical connection for electronic controls.
18. Front Hydraulic System: Tool carrier shall have manufacturer's regularly furnished hydraulic system for front hitch. System shall be a closed loop system with piston pump(s) on an independent circuit with a minimum flow of 23 GPM. System shall have the ability to power all hydraulic attachments regularly furnished by manufacturer at optimum performance. Front hitch hydraulic system shall include all necessary in cab hydraulic controls, plumbing, fittings and accessories to power hydraulically driven attachments.
19. Counter Weights: Shall have maximum allowable amount of boom counterweights regularly furnished by manufacturer.
20. Cab: Fully enclosed, front mounted, pressurized, cab with safety glass windows providing view of the road in front, rear, and each side. Cab shall be equipped with an adjustable suspension seat, seat belts, floor mats, inside rear view mirror, left and right mounted outside rear view mirrors, factory installed air conditioning and heater, front and rear defroster, and electric windshield wipers. Right side of cab shall be fitted with Lexan™ polycarbonate glass to protect operator from impacts. Cab shall include all necessary controls and displays regularly furnished by manufacturer for proper operation of machine.
21. ROPS: Shall have manufacturer's regularly furnished ISO 3471 rated Roll Over Protection Structure.
22. Rear View Camera: Unit shall be equipped with a factory installed rear view camera and in-cab mounted screen.
23. Lights: Shall have manufacturers regularly furnished front and rear work lights. Shall have front and rear turn indication lights, rear mounted stop and tail lights, and rear mounted back-up lights. Shall have DOT reflective conspicuity tape and SMV diamond on rear of machine. All lighting and reflective devices shall meet U.S. DOT regulations for highway use.
24. Safety Equipment: Backup alarm meeting the requirements of SAE J994 with a minimum sound level output of 97 decibels. Shall be equipped with an electric traffic horn.
25. Weight: Shall have a minimum operating weight of 20,000 pounds.
26. Vandalism Protection: Shall be equipped with vandalism protection including the following items as a minimum:
 - a) Locking cab door(s) and window(s).
 - b) Locking filler caps for the fuel tank, hydraulic tank, and radiator. Filler caps located behind locking panels are acceptable in lieu of locking caps.
 - c) Lockable engine enclosure.
 - d) Lockable battery box cover(s), if batteries are not mounted inside lockable engine enclosure.
 - e) All lockable panels and compartments shall be equipped with an integrated locking system or padlocks. All locks shall be keyed alike.
27. Color: Manufacturer's standard colors and decals acceptable.
28. Warranty: Units purchased under this specification shall be warranted against defects in material and workmanship for a minimum period of twelve (12) months (365 days) from date unit is placed in operation by ARDOT.
 - a) Warranty shall include all parts, labor and transportation costs to the location of equipment.
 - b) If equipment cannot be repaired on location, warranty shall include cost of transport to the facility where the repair work will be done.
 - c) It will be the responsibility of the successful bidder to insure that repairs are completed in a timely manner.
 - d) This is a minimum warranty required in order for a bid to be considered. Any warranty by the manufacturer on components of the grader purchased that exceeds the minimum warranty specified (and is so advertised and included in manufacturer's printed data sheets) shall be passed on to the ARDOT.
 - e) If any warranty literature submitted with the bid conflicts with ARDOT warranty requirements, the conflict(s) shall be specifically noted, corrected and included with the bid or the conflict(s) will be considered an exception to warranty specifications and the bid rejected.
 - f) Recent prior failure to provide warranty-work, parts, replacement parts or service, in a timely manner, for equipment from the same manufacturer or dealer shall be grounds for the rejection of any submitted bid, or for the denial of any otherwise qualified low bidder, whether such failure is attributable to the manufacturer or the dealer of the equipment. For the purposes of this paragraph "timely manner" means a period of time not exceeding thirty (30) calendar days

to provide requested warranty-work, parts, replacement parts, or service. For the purposes of this paragraph “manufacturer” means the original manufacturer of the equipment and its successor or successors, regardless of number, and whether acquired by sale, merger, or otherwise. For the purposes of this paragraph “replacement part” means a part redesigned by a manufacturer to correct a design or engineering defect and which replacement part is capable of providing dependable performance in normal operation conditions for its normal service life without failure. Such bid or bids may be rejected by the Department until such failure or failures have been remedied to the satisfaction of the Department and until such manufacturer or dealer is providing such warranty-work, parts, replacement parts, and service in a timely manner.
