AR Highway and Transportation Department Saves Taxpayers Nearly \$100,000 Per Unit Acquiring Federal Surplus Freightliners

The Arkansas Highway and Transportation Department (AHTD) is responsible for providing consistent control over maintenance and construction activities for their highway system totaling 16,398 miles, or 16.4% of the 100,123 miles of public roads in Arkansas. Last year, 139 projects totaling approximately \$758 million were performed on the highway system.

AHTD is also responsible for maintenance, inspections and load analysis for 7,273 state-owned bridges as well as inspections and load analysis of 4,313 county-owned bridges and 997 city owned bridges.

When AHTD needs a Freightliner for their fleet, they contact the AR State Agency for Surplus Property (ARSASP). Here's why:

A Federal Surplus Property Freightliner Truck was acquired for \$6,500. Plus, a surplus hydraulic system with a 12-foot dump bed for \$18,950.00. The total initial cost of the surplus truck in service and handling fees was \$25,450.

The AHTD will add a snow plow for \$10,250 and Material Spreader Box for \$13,500, bringing the final cost of the Freightliner to \$49,500, compared to a new 2013 model outfitted with the same options for \$146,250.

AHTD has acquired 21 AM General Freightliners including model years from 1990 through 2007.
