HB 1726 BOND ISSUE

Authorizes the State Highway Commission to issue bonds for highway maintenance and improvements, upon approval by voters in a statewide election.

FAILED

HB 1727 GAS TAX

Establishes additional fuel sales tax at the wholesale level to be levied, only if the State Highway Commission is authorized by a statewide vote to issue highway maintenance and improvement bonds.

FAILED

"As to the long-term solutions, it emphasizes that it is difficult to get a referral of this General Assembly out to the voters, and that I hope the leadership of our state and the business community and others **will look at an initiated act that might go on the ballot for a highway program,**" he said. "Otherwise, we'll continue to debate the long-term solution in future sessions."

Special Report
Arkansas Legislative Audit

Review of Sources and Uses of Funds
Arkansas Department of Transportation
For the Period July 1, 2009 through June 30, 2016 and
Projected for Fiscal Years 2017 through 2020

INTRODUCTION

This report is presented in response to a request for Arkansas Legislative Audit (ALA) to review information, estimates, and calculations provided by the Arkansas Department of Transportation (ARDOT), formerly known as the Arkansas State Highway and Transportation Department, related to highway funding. ARDOT has indicated that additional state funding is needed to fully maximize available federal funds and to expand non-federal construction and maintenance projects.

OBJECTIVES

The objectives of this report were to:

1. Provide information regarding state funding sources and uses for highways, with associated construction and maintenance costs, for prior years.
2. Determine the amount of matching funds needed annually in order for ARDOT to receive the maximum federal aid available.
3. Determine the amount of additional state revenues needed to fund ARDOT's proposed construction and maintenance program for roads and facilities.
4. Provide a history of bond issuances, including balances and associated costs.

SCOPE AND METHODOLOGY

This report was prepared by reviewing activities for state fiscal years ended June 30, 2010 through 2016, and projections and estimates for federal fiscal years ending September 30, 2017 through 2020. ALA staff reviewed audit reports from prior years, particularly revenues and expenditures related to construction, and determined future federal funding from reports obtained from the Federal Highway Administration. All information for additional construction and maintenance projects was provided by ARDOT and tested for accuracy and reasonableness by ALA staff.

The methodology used in preparing this report was developed uniquely to address the stated objectives; therefore, this report is more limited in scope than an audit or attestation engagement performed in accordance with Government Auditing Standards issued by the Comptroller General of the United States.

BACKGROUND

ARDOT recognizes revenues from both federal and state sources. State revenues include motor fuel taxes, registration fees, natural gas severance fees, and overload permits and penalties. Many highway construction projects are funded with both federal and state monies. The percentage of state participation in these projects varies depending on the federal program involved, but most programs require a 20% match.
