

INTEROFFICE MEMORANDUM

DATE: December 12, 1978

TO: BRIDGE DESIGN PERSONNEL

FROM: Veral Pinkerton, Bridge Engineer

SUBJECT: Fabrication of Members

For continuous steel spans, add a note to details saying:

"Steel plates for main members and splice plates for flanges and main tension members, not secondary members, shall be cut and fabricated so that the primary direction of rolling is parallel to the direction of the main tensile and/or compressive stresses."
