

INTEROFFICE MEMORANDUM

DATE: July 13, 1983

TO: Mr. John Kizer, State Aid Engineer
FROM: Veral Pinkerton, Bridge Engineer
SUBJECT: Emergency Relief State Aid Projects

In order to avoid misunderstandings, and to document the intended repair or replacement of Emergency Relief State Aid Projects (ES and EF designations), please furnish us with a memo when the project deviates from standard policy in roadway width or design flood. The memo should also cover any special conditions such as repair piers only, or the County Judge requests no bridge railing.
