

## INTEROFFICE MEMORANDUM

**DATE:** July 24, 1991

**TO:** BRIDGE DIVISION PERSONNEL  
**FROM:** Veral Pinkerton, Bridge Engineer  
**SUBJECT:** Approach Slab and Gutter Standards

Roadway Design has developed a new standard to cover different sizes of drop inlets. They will be located at the end of the approach gutters, but will not be part of the gutters.

All details of drop inlets, drainage pipes and outlets will be removed from our Standards 2016B, C and E and 2017. Types of gutters will be B, C or E only; not B1, B2 or B3, etc.

Use of the new system will start with the September 25, 1991 letting.
