

**INTEROFFICE MEMORANDUM**

**DATE:** June 30, 1997

**TO:** Phillip L. McConnell, Engineer of Roadway Design Division

**FROM:** Marion Butler, Division Head, Environmental Division

**SUBJECT:** AHTD Job Number 060812  
District Six Bridges (Scour Repair) (hwy. 67)  
Hot Spring County

Compliance with Section 110.06(c) Temporary fill (p. 115) of the 1996 Standard Specifications requires information regarding the stream type and channel bank location at stream crossings. For the referenced project, please assure that the following information appears in the design plans and that it is utilized in design of temporary work or have roads which may be required for maintenance of traffic:

<u>Stream</u>	<u>Station</u>	<u>Stream Type</u>	<u>Top of Channel Elevation</u>
Francois Creek	N/A	Perennial	258.0 m msl
Reyburn Creek	N/A	Perennial	258.0 m msl

Questions regarding this information should be directed to John Harris at 2522.
