

AHTD Job Number 040721
Historic Bridge Marketing Description

AHTD Bridge Number M1144 (Little Frog Bayou Bridge), on Highway 64B, was determined eligible to the National Register of Historic Places (NRHP) during the 2005 AHTD Historic Bridge Inventory. The bridge is eligible to the NRHP under criterion A, for its association with early transportation in Arkansas, and criterion C, for its design.

In approximately 1929, an unknown builder constructed this bridge over the Little Frog Bayou. The truss span measures 62 feet long and 18 feet wide. The Little Frog Bayou Bridge is one of twenty-seven steel, pony truss bridges still in use on the highway system in Arkansas that display the Warren with verticals design.
