MOTION

Vice Chairman Tom Schueck moved, Commissioner Robert Moore seconded and the motion passed to approve the Minutes from the previous Commission Meeting of June 6, 2018.

OTHER DISCUSSION ITEMS

Patrick Patton, the Department's new Chief Fiscal Officer, provided the May 2018 update on state highway revenue. Mr. Patton noted that state highway revenues to the Department from traditional sources are up a total of 2.1% (\$7.8 million) in the State Fiscal Year (SFY) 2018 compared to the same period for SFY 2017. Revenue from the Natural Gas Severance Tax is lower this year compared to last year, resulting in total revenues available being 1.7% (\$6.2 million) above last year. Actual state revenue received is 2.7% (\$9.9 million) above projected (budgeted) revenue for this year.

Discussion Item - Continued

In closing, Mr. Patton stated that May revenue from the 0.5% General Sales Tax for the Connecting Arkansas Program was 2.39% higher, (\$353,289) than projected by the Department of Finance and Administration (DF&A) for the month. Year to date actual revenue is below projections by 1.26% (\$2.1 million). Since inception, this revenue source is 0.60%, or \$5.0 million, under DF&A's projections.

Director Bennett provided the latest information on the Federal highway and transit funding issues. Director Bennett noted that the passage of the FAST Act, passed in December 2015, provided increased funding over its five-year term. On February 9, 2018 Congress passed a budget for Federal Fiscal Years 2018 and 2019. On March 22, 2018 Congress passed a spending bill that provides funding at full levels of the Fixing America's Surface Transportation Act for Federal Fiscal Year 2018. Long-term funding for the Highway Trust Fund continues to be an issue. President Trump has stated that beginning in Federal Fiscal Year 2021, funding should be limited to revenue that is deposited into the Highway Trust Fund. This would result in a 40% reduction in the Federal-aid Highway Program.

In closing, Director Bennett stated that not only are there questions regarding future Federal-aid funding, but the source(s) of dependable long-term State revenue to provide the match for Federal-aid funds beyond 2018 and the additional State revenue needed to adequately maintain and improve Arkansas' transportation system have not been identified.

Director Bennett gave an update on the status of the 2011 Interstate Rehabilitation Program (IRP) and Connecting Arkansas Program (CAP). The 2011 Interstate Rehabilitation Program was approved by Arkansas voters in November 2011. Under this program, the Commission has the authority to issue up to \$575 million in GARVEE bonds for Interstate rehabilitation. Three series of bonds have been issued. The first was sold in September 2012 at a par value of \$197 million (true interest cost of 1.6%) with a premium of \$33 million (total of \$230 million available for construction). The second was sold in October 2013 at a par

Discussion Item - Continued

value of \$172 million (true interest cost of 2.2%) with a premium of \$29 million (total of \$201 million available for construction). The third was sold in November 2014 at a par value of \$206 million (true interest cost of 2.1%) with a premium of \$37 million (total of \$243 million available for construction).

The Connecting Arkansas Program was approved by Arkansas voters in November 2012. Under this program, the Commission has the authority to issue up to \$1.3 billion in revenue bonds for four-lane highway construction. The first series of bonds was sold in September 2013 at a par value of \$469 million (true interest cost of 3.1%) with a premium of \$25 million (total of \$494 million available for construction). No other bond sales under this program are expected.

Director Bennett presented a summary of the apparent low bids and bidders from the June 13, 2018, Bid Letting.

Director Bennett gave a report on Managing the Decline of the Highway System. He stated that much effort has been directed toward identifying the amount of funding needed to maintain the transportation system in the State. However a dedicated source for these funds has not been established. Therefore, if no additional funds are identified, a process should be developed to manage the decline

Director Bennett presented a list of upcoming meetings and events that the Commissioners and Director will be attending
