I-30 MEDIAN CABLE BARRIER PROJECT TO REQUIRE SALINE COUNTY LANE CLOSURES

LITTLE ROCK (6-9) – Crews will begin preparations next week for the installation of a median cable barrier on I-30 in Saline County, according to Arkansas State Highway and Transportation Department (AHTD) officials.

The \$1.4 million contract will erect a single wire median barrier for almost 4.5 miles between Sevier Street in Benton and the Highway 70 exit to Hot Springs. The project will take 4-6 weeks to complete and single lane closures will occur during that time – mostly overnight and on weekends. Lane closures are not planned during daytime hours.

Motorists should exercise caution when approaching and traveling through all highway work zones.
