### **SHACKLEFORD ROAD TRAFFIC PATTERNS CHANGE AS UTILITIES RELOCATE NEAR I-430/630 PROJECT**

**LITTLE ROCK (10-21)** -- Crews on the I-430/630 interchange project will begin altering traffic patterns on Shackleford Road next week, according to Arkansas State Highway and Transportation Department (AHTD) officials.

Relocation of utilities parallel to the southbound lanes will necessitate the closure of a single Shackleford Road lane between Financial Parkway and Markham Street. Beginning on Sunday, October 23, one of the existing northbound lanes will be eliminated to accommodate the work. Lane closures will occur on Sunday during the transition.

As the three existing Shackleford Road northbound lanes approach the I-630 intersection – one lane will be a dedicated right turn onto I-630 eastbound, one lane will be a dedicated left turn onto Financial Parkway and one (instead of two) lanes will continue north. Four existing southbound lanes will still be in place.

Motorists should exercise caution when approaching and traveling through all highway work zones.
