SAFETY IMPROVEMENTS TO INTERSTATE 430/630 INTERCHANGE

LITTLE ROCK (2-22) -- Crews will be refreshing pavement markings (stripes and raised pavement markers) to maintain safety through the Interstate 430/630 (Big Rock) Interchange, according to Arkansas State Highway and Transportation Department (AHTD) officials.

This project is intended to maintain safe travel through the interchange by making all current pavement markings stand out from any removed markings. This will make them more visible, especially at night and during inclement weather conditions.

The work will be performed using mobile lane closures, Tuesday, February 26th through Thursday, February 28th between 9:00 a.m. and 3:00 p.m., weather permitting. Affected areas include Interstate 630, Interstate 430, and associated ramps and merge lanes, Shackleford Road, and Financial Centre Parkway.

Motorists should exercise caution when approaching and traveling through all highway work zones.
