PAVEMENT RESEARCH REQUIRES OVERNIGHT LANE CLOSURE ON INTERSTATE 630 IN LITTLE ROCK

LITTLE ROCK (10-3) – Pavement research will require overnight lane closures on Interstate 630 in Little Rock, according to Arkansas State Highway and Transportation Department (AHTD) officials.

Crews will be taking core samples from Interstate 630 between Baptist Health and University Avenue. The work will require a rolling overnight closure of the eastbound outside lane of Interstate 630 within the work zone.

The lane closure will be **Monday night, October 6th through Tuesday morning, October 7th, between 7:00 p.m. and 5:00 a.m.**, weather permitting. Traffic will be controlled using barrels and warning signs.

This project is part of AHTD's Connecting Arkansas Program. More information on this project is available at ConnectingArkansasProgram.com.

Motorists should exercise caution when approaching and traveling through all highway work zones. Additional travel information can be found at IDriveArkansas.com or ArkansasHighways.com. You can also follow us on [Twitter @AHTD](https://twitter.com/AHTD).
