BRIDGE INSPECTION REQUIRES LANE WIDTH REDUCTION ON HOT SPRINGS BYPASS

LITTLE ROCK (7-31) – A routine bridge inspection will require a lane width reduction on U.S. Highway 70 in Hot Springs, according to Arkansas State Highway and Transportation Department (AHTD) officials.

A crew will inspect the flyover bridge that carries westbound U.S. Highway 70 traffic onto the bypass. The work will require reducing the width of the single lane on the bridge.

The width reduction will occur **Wednesday, August 5th** between 9:00 a.m. and 3:00 p.m., each day, weather permitting.

Drivers should exercise caution when approaching and traveling through all highway work zones. Additional travel information can be found at IDriveArkansas.com or ArkansasHighways.com. You can also follow us on [Twitter @AHTD](https://twitter.com/AHTD).
