AHTD Seeking Public Input at Meetings about State's Future Transportation Investments

NORTHWEST ARKANSAS (10-16) – The Arkansas State Highway and Transportation Department (AHTD) is hosting a public meeting in Springdale as a part of the process in updating its Long Range Intermodal Transportation Plan (LRITP).

The LRITP contains the goals, objectives, policies, investment strategies and performance measures that will guide the state's future transportation investments. It will examine all the pieces of the state's transportation system, including highways, bridges, public transportation, rail, bicycle and pedestrian, ports and waterways, and aviation.

The meeting will follow an open house format and will be held from 4:00 p.m. – 6:00 p.m.

Thursday, October 22 – Springdale

Northwest Arkansas Regional Planning Commission
1311 Clayton Street
Springdale, AR 72762

This is one in a series of meetings designed to give citizens the opportunity to share their opinions of the LRITP's goals, objectives and transportation challenges that impact safety, mobility and accessibility. The public's input is important to the Department as policies and strategies are updated. AHTD wants to meet the Plan's goals and improve Arkansas' multimodal transportation system with the help of Arkansans.

Questions about the public meetings can be directed to AR_LRITP@ahtd.ar.gov or by calling (501)569-4937.
