## **Arkansas State Highway Commission Releases Statewide Transportation Improvement Program for Public Comment**

**LITTLE ROCK (3-16)** – The Arkansas State Highway Commission is pleased to announce the release of the Statewide Transportation Improvement Program (STIP) for Federal Fiscal Years 2016-2020.

The public is invited to review and comment on the contents of this document by **May 2, 2016**. The STIP may be downloaded from the Arkansas State Highway and Transportation Department (AHTD) web site at:

<http://www.arkansashighways.com>

The STIP may also be reviewed at the AHTD's Central Office or District Offices, the State Clearinghouse, the Metropolitan Planning Organization (MPO) Offices, or the local Planning/Economic Development District Offices.

The projects listed are the State's overall highway and transit programs and encompass all areas of the State. With respect to urban areas greater than 50,000 in population, MPOs have included individual projects in their Transportation Improvement Programs. For additional information on projects located within an MPO area, the MPO can also be consulted.

This Program is consistent with the State's long range plan and includes roadway, bridge, safety, traffic signal, intersection improvement, and transit projects. This document is prepared in response to Title 23 United States Code, Section 135 – Statewide Planning Requirements, as continued by the Fixing America's Surface Transportation (FAST) Act. Copies of the Draft STIP are also available by mail when requested through AHTD's Program Management Division at (501) 569-2262.

All comments regarded the STIP should be submitted in writing to:

Kevin Thornton  
Assistant Chief Engineer – Planning  
Arkansas State Highway and Transportation Department
