Construction Requires Lane Closure on State Highway 112 in Benton County

BENTON COUNTY (08-08) – Pipe installation associated with roadway work on the new U.S. Highway 412 Northern Bypass in Springdale requires daytime lane closures on State Highway 112, according to Arkansas State Highway and Transportation Department (AHTD) officials.

The lane closures will take place **Wednesday, August 10, through Saturday, August 13, between 9:00 a.m. and 4:00 p.m.**, weather permitting. The Bypass crosses State Highway 112 north of Elm Springs and south of Cave Springs. Flaggers will direct traffic on State Highway 112 where one lane of traffic will be stopped prior to the work zone.

Advance warning signs will be placed to notify traffic approaching the work zone. The public is advised to be cautious if traveling in this work zone.

This project is part of AHTD's Connecting Arkansas Program and constructs approximately 4 miles of the new four-lane U.S. Highway 412 Northern Bypass, which extends from Interstate 49 to State Highway 112. The U.S. Highway 412 Northern Bypass project will provide a principal east-west route north of the Springdale Metropolitan Area. More information on this \$100.6 million project is available at ConnectingArkansasProgram.com.

Drivers should exercise caution when approaching and traveling through all highway work zones. Additional travel information can be found at IDriveArkansas.com or ArkansasHighways.com. You can also follow us on [Twitter @AHTD](https://twitter.com/AHTD).
