Replacement of State Highway 141 Bridge Requires Road Closure in Western Greene County

GREENE COUNTY (11-4) – The removal and disposal of a bridge will require the closure of a section of State Highway 141 south of Walcott, according to Arkansas State Highway and Transportation Department (AHTD) officials.

This work will require the removal of an existing 30-foot bridge and the installation of new pipe culverts approximately half a mile north of the intersection of State Highways 358 and 141 and 3.5 miles south of Walcott. Work will begin at **7:00 a.m.** on **Tuesday, November 8**, and should be completed by that evening, weather permitting. Due to the amount of work required it is possible the closure will remain in place until the following day, Wednesday, November 9.

This closure will require a detour route, as depicted on the attached map. The detour will not be available for use by heavy trucks and is only for passenger vehicles. Heavy trucks are asked to use alternate routes during this work. Local residents will be able to enter the work zone.

Drivers should exercise caution when approaching and traveling through all highway work zones. Additional travel information can be found at IDriveArkansas.com or ArkansasHighways.com. You can also follow us on Twitter [@AHTD](https://twitter.com/AHTD).
