Construction Requires Overnight Lane Closures and Traffic Shift on Interstate 630 in Little Rock

PULASKI COUNTY (10-5) – Construction to widen Interstate 630 requires overnight lane closures in Little Rock, according to Arkansas Department of Transportation (ARDOT) officials.

Weather permitting, crews will reduce I-630 westbound traffic to one open lane during overnight hours between Baptist Hospital Drive (Exit 7) and University Avenue (Exit 5). Center and inside lanes will be closed during the following hours to conduct the work. Exit ramps may be impacted during this period at 15-minute intervals to tie into temporary ramps at Rodney Parham Road and University Avenue.

➤ **Monday, October 8 to Friday, October 12, 8:00 p.m. to 6:00 a.m., nightly**

In addition, a traffic shift to move traffic from the outside lanes to the inside lanes will continue through **Friday, October 12**.

Traffic will be controlled using signage and barrels. During daytime travel peak hours, all six lanes on I-630 will be open to traffic. Neighborhoods adjacent to the interstate may experience noise impacts during nighttime hours. The public is advised to be cautious when traveling in the work zones.

This project (Job CA0608) is part of ARDOT's Connecting Arkansas Program, which is funded through a 10-year, half-cent sales tax. Interstate 630 is being widened to four lanes in each direction (eight total) for 2.2 miles between the Big Rock Interchange and University Avenue. The widening is estimated to be complete in early 2020. More information on this \$87.4 million project is available at ConnectingArkansasProgram.com.

Drivers should exercise caution when approaching and traveling through all highway work zones. Additional travel information can be found at IDriveArkansas.com or ARDOT.gov. You can also follow us on Twitter [@myARDOT](https://twitter.com/myARDOT).
