Construction Requires Lane Closures on State Highway 612 in Springdale

BENTON COUNTY (6-11) – Crews performing bridge work on State Highway 612 (future U.S. Highway 412 bypass) in Springdale will require lane closures, according to Arkansas Department of Transportation (ARDOT) officials.

Weather permitting; lanes on State Highway 612 will alternately be closed for eastbound and westbound directions between **Wednesday, June 13 and Wednesday, June 20 during daytime hours**. This will allow the contractor to perform minor cosmetic improvement on bridges between the Wagon Wheel Road overpass and the West Miller Overpass.

Traffic will be controlled by construction barrels and signage.

This project (Job CA0907) is part of ARDOT's Connecting Arkansas Program. Approximately four miles of the new four-lane U.S. Highway 412 Northern Bypass has been constructed, which extends from Interstate 49 to State Highway 112. More information on this \$100.6 million project is available at ConnectingArkansasProgram.com.

Drivers should exercise caution when approaching and traveling through all highway work zones. Additional travel information can be found at IDriveArkansas.com or ArDOT.gov. You can also follow us on Twitter [@myARDOT](https://twitter.com/myARDOT).
