### **Maintenance to Interstate 30 Requires Nightly Lane Closures**

**PULASKI COUNTY (8-3)** – Maintenance operations on Interstate 30 require nighttime lane closures, according to Arkansas Department of Transportation (AR DOT) officials.

Weather permitting, crews will create alternating and temporary lane closures between the 6<sup>th</sup> Street overpass and the Arch Street Overpass (at I-440WB/I-30WB). These closures will be in place between 9:00 p.m. and 5:00 a.m. nightly from Sunday through Thursday for the next two weeks. These closures will allow crews to resurface sections of the roads where potholes tend to develop.

Striping will also occur during the second week of this work, and the striping work will be completed with moving road closures during non-peak hours.

Traffic will be controlled with signage and traffic barrels. Drivers should exercise caution when approaching and traveling through all highway work zones.
