### **Construction on I-30 Requires Overnight Lane Closures In Hempstead, Nevada & Clark Counties**

**HEMPSTEAD, NEVADA & CLARK COUNTIES (02-05)** – Construction work to rehabilitate Interstate 30 between Emmet and the Gurdon Rest Area will require lane closures, according to Arkansas Department of Transportation (ARDOT) officials.

Weather permitting, one lane of I-30 eastbound will be closed beginning west of the State Highway 299 (Exit 36) overpass and continuing east, reducing traffic to one open lane. The lane closures will begin **Monday morning, February 11 at 12:00 a.m. through 10:00 a.m.** to permit crews to erect safety platforms over I-30 for bridge overpass work. Lane closures will continue each night **Sunday through Saturday from 8:00 p.m. through 10:00 a.m.** as crews continue east with erection of safety platforms at overpasses between State Highway 299 (Exit 36) and State Highway 19 (Exit 46) before returning westbound.

This project to mill and overlay 19.3 miles on I-30 in Hempstead, Nevada and Clark Counties was awarded to Redstone Construction Group, Inc. in September 2018 for \$39,017,512.83. The project includes shoulder rehabilitation and bridge rehabilitation work on twelve interstate bridges and four overpass bridges. It is estimated the project will be substantially complete in June 2020.

Drivers should exercise caution when approaching and traveling through all highway work zones. Additional travel information can be found at [IDriveArkansas.com](http://IDriveArkansas.com) or [ARDOT.gov](http://ARDOT.gov). You can also follow us on Twitter [@myARDOT](https://twitter.com/myARDOT).
