Construction on Interstate 30 in Saline County Requires Various Lane Closures

SALINE COUNTY (7-29) – Construction to widen Interstate 30 to six lanes in Saline County requires lane closures, according to Arkansas Department of Transportation (ARDOT) officials.

West Sevier Street

Construction crews will be re-constructing the intersection of West Sevier Street and the I-30 Frontage Road on the north side of the interstate. Weather permitting, the eastbound lane of West Sevier Street will be closed approximately 200 feet before its connection with the frontage road from **Monday, July 29 through Saturday, August 17**. Access to area businesses will be maintained. Traffic will be controlled with construction barrels and signage.

During this time, the westbound lane of West Sevier Street will be closed for two nights in this work area to allow crews to place a drainage pipe at the intersection. This work will occur overnight between **9:00 p.m. and 6:00 a.m.** Westbound traffic on the I-30 Frontage Road will be directed underneath the South Street Bridge as an alternate route to access West Sevier Street.

I-30 Frontage Road (North Side of I-30)

Construction crews will be re-stripping lanes and placing barrier wall on the I-30 Frontage road on the north side of the interstate. Weather permitting, eastbound and westbound frontage road lanes will alternately be closed west of the South Street Bridge to Bass Lane between **9:00 p.m. and 6:00 a.m.**, from **Monday night, July 29 through Saturday morning, August 3**. Traffic will be controlled with nighttime flagging operations, construction barrels, and signage.

Areas adjacent to the interstate may experience noise impacts during nighttime hours.

This project (Job CA0601) is part of ARDOT's Connecting Arkansas Program. More information on this \$187.3 million project is available at ConnectingArkansasProgram.com.

Drivers should exercise caution when approaching and traveling through all highway work zones. Additional travel information can be found at IDriveArkansas.com or ARDOT.gov. You can also follow us on Twitter [@myARDOT](https://twitter.com/myARDOT).
