Geotechnical Work on Interstate 30 Requires Lane Closures in Little Rock and North Little Rock

PULASKI COUNTY (02-21) – Crews performing geotechnical sampling on Interstate 30 in Little Rock and North Little Rock will require interstate lane closures, according to Arkansas Department of Transportation (ARDOT) officials.

Geotechnical boring for design work on the 30 Crossing project will require eastbound and westbound lane closures in select areas on Interstate 30 and adjacent ramps and city streets. Weather permitting, this work will occur from **Monday night, February 24, through Wednesday morning, March 4**, primarily between **8:00 p.m. and 6:00 a.m.**

- For Eastbound I-30, inside or outside lane closures will occur in varying locations between the 9th Street Bridge in Little Rock and the East I-30 ramp to East I-40 in North Little Rock.
- For Westbound I-30, inside or outside lanes will be closed in varying locations from the Broadway Street Bridge in North Little Rock to the 9th Street Bridge in Little Rock.

Traffic will be controlled with construction barrels and signage. The public is advised to be cautious when traveling in the work zone.

The 30 Crossing project (Job CA0602) is part of ARDOT's Connecting Arkansas Program. More information on the CAP is available at ConnectingArkansasProgram.com.

Drivers should exercise caution when approaching and traveling through all highway work zones. Additional travel information can be found at IDriveArkansas.com or ARDOT.gov. You can also follow us on Twitter [@myARDOT](https://twitter.com/myARDOT).
