

AHTD Employee Participates In Special Olympics

To compete in the Special Olympics would prove to be exciting for any athlete, but to be able to travel to China to represent the United States in the 2007 Special Olympics World Competition would be the opportunity of a lifetime.

Travis Henderson, a Single Axle Truck Driver in District 10, got to do just that. He was part of Team U.S.A. that traveled to the World Games in Shanghai, China, this past September.

A resident of Blytheville, Henderson had already won three gold medals in the track and field competition at the national level at the first-ever National Special Olympic Games held in Ames, Iowa, in July. He won first place in the 3K, 5K and 10K events.

His trip to China and the World Competition proved to be successful as well. He brought home a Gold Medal in the 4 x 400-meter relay and a Bronze Medal in the 10,000 meter event.

Henderson, age 24, has enjoyed running and competing in the Special

Olympics since he was a little boy.

"I first remember running around the house when I was six years old," says Henderson. "Later on, I would run around outside with the other children when they would be playing games. When I was in the sixth grade, an elementary coach would work with me when I wanted to run."

Henderson was on the track team in junior and senior high. He has won Gold Medals at each of the 10 state level competitions he has attended.

"When I was older, I had a professional trainer that worked with me. He has now relocated, but I have been training on my own," Henderson adds.

Henderson runs five miles each day on Monday, Wednesday and Friday. On the weekends, he runs ten miles each day.

"I also try to go to the gym and do a little training to keep my muscles toned up."

The trip to China was memorable for many reasons. "I really enjoyed the

people in China," Henderson states. "I had a great time sightseeing. I'm not sure I liked the food, but the experience was a wonderful one."

Henderson's future plans include running in the Boston Marathon and forming a track and field club in the Blytheville area so that other young people in the community can train to run.

Henderson has worked for the AHTD for almost one year. "Right now, I am a Single Axle Truck Driver. My job consists of flagging, mowing, driving dump trucks and various other duties."

Employee - Angela (Jordan) Undiener, Resident Office Technician, RE Office No. 65

Length of Service - I have been with the Department for over 13 years.

Job Duties - I keep track of all work awarded to contractors to ensure that they are properly paid. I make sure the work is being properly measured and documented, prepare all components to be submitted for the finalization of a project and pay the contractors through the SiteManager system. I also administer data to all laptops used in the field and ensure all equipment used is verified and working accurately and audit everything but the toilet tissue twice a year. I train field clerks and back-up personnel for timekeeping and data entry. I am certified to test aggregate, concrete and soils for compliance with specifications and have to monitor the quality control and verification testing/certifications for anything incorporated into the projects. Around the office, I am known as the spell checker, fact finder, collector of useless but interesting information, argument settler, and rememberer of forgotten knowledge relating to obscure references and rules in the Specification Manual and Resident Engineer's Manual. For special occasions, I serve as the dishwasher, party planner, gift buyer and money collector for unexpected events.

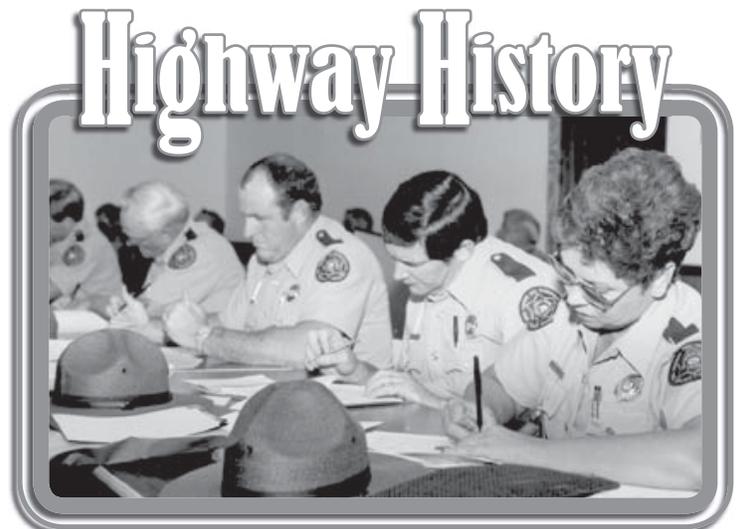

Favorite part of the job - My favorite part of the job is the security I feel in knowing there are numerous opportunities for advancement, and that I will be considered for anything I choose to do if I meet the requirements and have the ability to do it. I am offered knowledge and experience to improve my worth, pursue better opportunities, expand my ability to help the Department and my co-workers and still remain with the same employer with generous benefits. It's been great no matter where I worked and I have worked with some wonderful people. This was an excellent career choice.

Background - I was hired in August of 1994 in the Maintenance Division, screen printing highway signs. A year later, I moved to Reproduction running the Diazo-printer that made blueprint plan sheets. A year and a half later, I moved to Contract Estimates in Construction as an Estimate Technician where I remained for more than four years until I came to District 6 as a Resident Office Technician.

Family - I am married to David Undiener and have three children, or five if you include our pets: John (9th grade), Alex (6th grade, who will be a contestant in the Grant County Spelling Bee!), Theresa (5th grade), Dingo (shepherd dog) and Jeffrey (beta fish).

Hobbies/Interests - I love to read when I have time. My time is divided between Boy Scouts, St. Andrews United Methodist Church choir and Taekwondo, where I have attained the rank of 2nd degree black-belt recommended. The rest of the family has attained 1st degree or higher and enough trophies to need their own room. In the summer I like to sail, ski, scuba-dive, snorkel and spearfish.
