## Arkansas Highway Police **MAKE A WISH** Come True

**E**ight-year-old McGuyre Moore of DeQueen spent a recent fall afternoon as a special guest of the Arkansas Highway Police at AHP Headquarters in Little Rock. What McGuyre thought was a trip to learn all about the work the Highway Police do was actually that, and more.

McGuyre is in remission after battling leukemia for the past several years. Those years have been filled with treatments and visits to the doctor's office. So on October 15th during his visit to the Department, the AHP and the Make-A-Wish Foundation surprised McGuyre by telling him a special wish of his had been

granted. He and his family were going on a trip to Disney World.

McGuyre may have had a hint or two. The AHP conference room was decorated in a Disney World motif and joining in the festivities were numerous members of the Highway Police staff dressed in Disney character costumes.

"I knew that's what this had to be," McGuyre stated enthusiastically.

In addition to the trip, the Make-A-Wish Foundation and the AHP presented McGuyre with a brand new suitcase for the trip, a camera and a photo album to fill when he gets home. Making the trip to Disney World

with McGuyre will be his Mom Jane, his Dad Matt and little sister Evie. Evie was presented with some dolls that may just make the trip as well.

"McGuyre has been so busy with treatments and with school," his Dad stated. "We really appreciate you guys."

Highway Police learned of the Make-A-Wish Foundation while busy with another good cause.

"Some of our officers had heard about the Make-A-Wish Foundation while working on the Arkansas Special Olympics and they became interested," stated Captain Jay Thompson of AHP. "The Make-A-Wish chapter here in Arkansas made a presentation to the AHP Charity Fund Board and that is when it really got rolling."

The Make-A-Wish Foundation began in 1980. The mission of the organization is to grant the wishes of children with life-threatening medical conditions to enrich the human experience with

hope, strength and joy. Since 1980, they have granted the wishes of 227,006 children between the ages of two-and-a-half and 18. The foundation has approximately 25,000 volunteers.

In fiscal year 2010, the Make-A-Wish Foundation granted 13,580 wishes, the most ever in its 30-year history.

"We try our best to match waiting kids on our list with organizations that are waiting to get involved," says Melissa Wolverton from the Arkansas Chapter of Make-A-Wish.

McGuyre and his family will be heading to Florida on November 14th. For McGuyre, this will be his first plane trip.

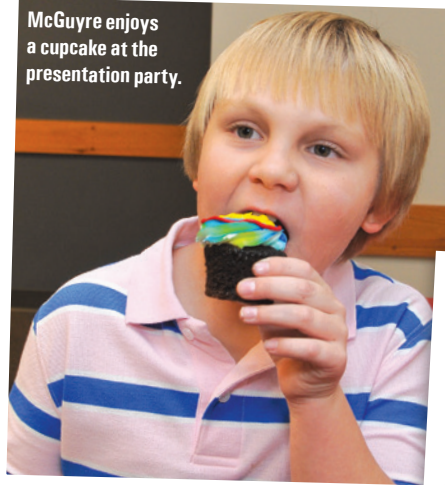

"He has been so brave through all of this," stated McGuyre's mother Jane, who is a high school Spanish teacher in DeQueen. "We've been blessed in so many ways. Make-A-Wish is such an important cause to give to. I just want to say thank you so much."

The Arkansas Highway Police raised money for McGuyre's trip through the "Cops on Bulls" fundraising event. Held earlier this year, 16 AHP officers participated by riding or attempting to ride bulls at the Saline County Fairgrounds. Proceeds were also raised during the annual AHP fishing tournament.

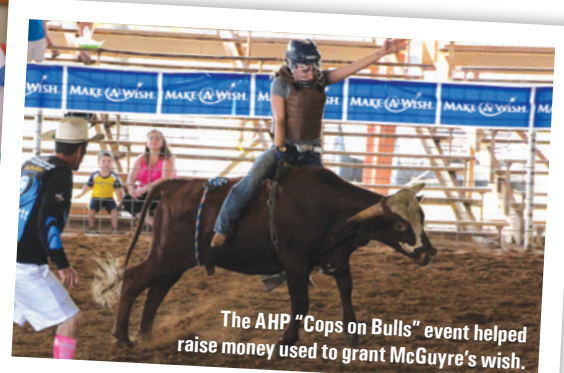

"There were numerous volunteers throughout the Highway Police and Department that worked on 'Cops on Bulls' and the fishing tournament and we extend a great thanks to them," added Thompson.

The Arkansas Highway Police plan to continue to work with the Make-A-Wish Foundation in the future. ♦

# Department Installs VEHICLE MANAGEMENT SYSTEM

**A** new Vehicle Management System that features vehicle diagnostics and GPS tracking is currently being installed on the Department's fleet of 2,400 "on-road" passenger vehicles.

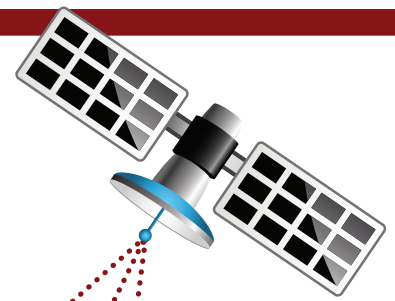

The system is designed to increase driver awareness of the vehicle's mechanical condition. It is done with continual automatic engine diagnostics. In addition, the system also monitors the speed of the vehicle for accountability, and records real-time location information for emergency response needs.

"This new system is going to be used on everything from passenger cars to pick-up trucks to dump trucks," states AHTD Scott Bennett. "One of its biggest benefits is that with the constant engine diagnostics, we will have less vehicle downtime. At the same time, that will increase driver safety."

The system features proactive use of diagnostic trouble codes which help avoid more serious engine problems and, as a result, saves on associated repairs.

In addition to monitoring engine diagnostics, the system performs a complete EPA-mandated emissions control system check every four hours.

"Current law requires State vehicles to pass an emission control system check in large metropolitan areas," Bennett adds. "This program notifies a manager of a faulty emissions control device so that steps can be

taken to ensure the State vehicle runs green and efficiently."

The new GPS tracking system on the vehicles will provide location data. This feature will allow an employee's vehicle to be located easily in case of an emergency. It also features real time odometer readings which will reduce labor costs associated with the time-consuming process of manually gathering odometer readings.

"The GPS system will also protect AHTD staff in case of false accusations regarding speeding or accidents," Bennett added.

The new Vehicle Management System is expected to result in savings on fuel, maintenance and fleet utilization. Hardware and installation of the new System for the entire fleet was \$660,000. A pilot study conducted earlier this year provided a savings that reported a complete payback expectation in less than 12 months. ◆

## Named CVSA Vice President – Region II

**C**aptain Jay Thompson of the Arkansas Highway Police (AHP) was elected Vice-President of Commercial Vehicle Safety Alliance (CVSA) Region 2 at the group's Annual Conference and Exhibition held recently in Portland, Maine. Region 2 is composed of American Samoa, Alabama, Oklahoma, Louisiana, Arkansas, Kentucky, South Carolina, North Carolina, West Virginia, Virginia, Florida, Georgia, Tennessee and Mississippi.

CVSA is an international not-for-profit organization comprised of local, state, provincial, territorial and federal motor carrier safety officials and industry representatives from the United States, Canada, and Mexico. Its mission is to promote commercial motor vehicle safety and security by

providing leadership to enforcement, industry and policy makers. CVSA member jurisdictions are represented by various Departments of Transportation, Public Utility and Service Commissions, State Police, Highway Patrols and Ministries of Transport. In addition, CVSA has several hundred associate members who are committed to helping the Alliance achieve its goals; uniformity, compatibility and reciprocity of commercial vehicle inspections, and enforcement activities throughout North America by individuals dedicated to highway safety and security.

Captain Thompson is also the chair of CVSA's Size and Weight Committee and is currently assigned as Commander of the AHP's Permit Section. He has been a certified law

### WHAT'S AHEAD

# AHTD Team Finishes in Top 3 at **REGIONAL ROADEO**

**A** team comprised of the top finishers from the AHTD's annual Equipment Operators Roadeo made their way to Beckley, West Virginia, the third week of September to compete in the 10th Annual Southeastern Regional Equipment Operators Roadeo.

Joining the AHTD team there for a day of competition were teams from Georgia, Kentucky, Mississippi, North Carolina, Tennessee, Virginia and West Virginia. The competition is open to member states of the Southeastern Association of State Highway and Transportation Officials (SASHTO).

Top competitors from each state's local Roadeo displayed their skills in six categories of competition including Tractor/Lowboy, Motor Grader, Tandem Axle Dump Truck, Tractor/Mower, Single Axle Dump Truck and Backhoe.

Coming in first in the competition was the team from Tennessee. Host team West Virginia came in second, and the AHTD's Arkansas team came in third.

"Congratulations to our team for their strong finish," commented AHTD Director Scott Bennett. "They have successfully continued our string of top three finishes which began in the first year of the regional competition."

AHTD staff that participated as judges included Doug Hicks, Ken Jordan, Danny Keene, Tara Robinson, Eddie Tanner, Kenneth Tucker and Ray Woodruff.

Next year's Regional Roadeo will be held in Kentucky. ♦

**EMPLOYEE:****LANECIA F. WESTON**Office Administrative Assistant V,  
Fiscal Services Division, Central Office**LENGTH OF SERVICE:** 14+ years

**JOB DUTIES:** My job duties include, but are not limited to, assisting the Chief Fiscal Officer with special projects and reports. I provide clerical and administrative support to the Fiscal Services Division. Typing correspondences, preparing and maintaining office files, and preparing out of state travel requests are also a part of my job duties. It is also my duty to maintain and pay all invoices for our Division. I order and distribute all office supplies. I am also the backup for the Retirement Officer. I check all calculations and estimates of employees preparing to retire or wanting to buy back military service. I assist in running the death audits for our retiree payroll and also pay the monthly taxes for the retiree payroll. I run the Member Retirement Statements for all active, inactive and deferred employees. I am also responsible for typing and mailing out certain W-2s, and doing the reprints of W-2s from previous years. I assist the DROP Coordinator by keeping an updated and accurate list of all Retired DROP employees that will be approaching the age of 70 1/2 in any given year. Part of my job is assisting wherever the need may be.

**FAVORITE PART OF THE JOB:** My favorite part about my job is that my coworkers believe in me. I work with such a great group of people and they show me on a daily basis how much I am needed and appreciated. It feels good to have people come up to me and ask for advice on work-related issues.

**BACKGROUND:** I am a 1999 graduate of McClellan High School, "GO LIONS". I attended Pulaski Technical College where I earned my Associates of Arts Degree. I began work for the Department as a seasonal employee in my senior year of high school, in August of 1998. I have held several positions throughout my career at the Department but I have always worked in the Fiscal Services Division.

**FAMILY:** I am the proud mother of two fabulous young ladies, Kayla (13) and Daviona (9). Kayla is an 8th grader at Mabelvale Magnet Middle School and Daviona is a 4th grader at Mabelvale Elementary School. I am also the proud aunt of three boys: Monterio (10), Desmond (6) & Kylan (3) and one precious little lady Skylar (2). I also have one adorable goddaughter Ava (6 months) and many more friends and family whom I love very dearly.

**HOBBIES:** Some of my hobbies include dancing, bowling, skating, cooking and event planning. I also enjoy having craft hour with my daughters. We are always making something new or trying to cook something new. I spend a lot of time with my family but especially my mom, "I'm a Momma's girl"!!! As a family, we enjoy taking turns hosting game night at each other's home. This usually turns into a contest of males vs. females, which the females usually win until the males start to cheat "LOL". Most of all, I just try to have fun and enjoy life one day at a time!!! ♦

This is one of four projects that will widen the Interstate eastward to Interstate 430 in North Little Rock. Estimated completion of this project is set for late 2013. ♦

## Go – Live is a Total Success!

### What's New with KRONOS?

Congratulations, AHTD. We did it! By now, all of you must know that the **KRONOS** Workforce Management System was launched this October. We are all so excited about the new system in place and are already seeing the many benefits the system has to offer! Check out what our Director Bennett has to say about this successful system implementation!

**Scott Bennett**  
Director

#### CONGRATULATIONS, TEAM

### A Message from Our Director

As you read this issue of the CenterLine newsletter, our **KRONOS** workforce management system will have been “live” for almost two weeks. For everyone involved, this represents quite an accomplishment. We hoped to initiate the system this fall and we accomplished that. I want to thank our entire Department staff for all the hard work that has been put into making our **KRONOS** launch a success.

Work on **KRONOS** began in February of this year. We introduced AHTD employees to **KRONOS** in March and training began. Since then, we have all worked together to learn what the system can do and, through hands-on use, how to effectively utilize the system. Product testing began in June. “Going live” this month now allows us to take advantage of the benefits **KRONOS** provides us after so many months spent on the learning curve.

I don't think any of us will miss paper-based time sheets and leave cards. Those have been replaced with a fast, efficient and user friendly reporting tool. **KRONOS** will allow you to have up-to-the-minute information about your personal work hours, vacation and your sick leave. In addition, the system will now be saving us time, money and unnecessary work.

Remember, there is an email address for **KRONOS** help. It's called the **KRONOS** Help Desk and it can be found in your Outlook address book. The transition process and implementation couldn't have been possible without your help.

### So...Now What?

Through the duration of this project, your comments and feedback played a vital role with the implementation of the **KRONOS** Workforce Management System. Now that a quicker, seamless, and more efficient time management system has been integrated into our day to day operations, your feedback is even more crucial. Once we have had sufficient time to become adjusted to this new system, the AHTD project team will administer a Post-Implementation Survey to gauge your feedback. The survey will be similar to the Base-Line Survey we administered earlier this year. We will compare the results of the two surveys and will report on the comments we received. Remember, your insights are truly important to us, and we look forward to hearing from all of you.
